WORK EXPERIENCE

Graduate Research Assistant Synlab, Ryerson University

Feb 2020 - Present

- Designing and developing the backend for the Responsive Ecologies toolkit (RE/tk) using Javascript.
- Developing a tangible development & authoring environment for novice developers to facilitate rapid prototyping of cross device applications based on the RE/tk Project.

UX Associate, Gladiotron TransMedia Zone, Ryerson University

Sep 2019- Dec 2019

Designed and prototyped user interactions and user interface of the HUD and menu layout for the co-op video game Gladiotron (<https://gladiotron.com>) using Sketch and Unreal Engine.

UX Intern Info Edge India Ltd.

June 2018 - Aug 2018

- Collaborated with the User Experience Design team to improve the UI and rethink the design of 'Naukri.com' mobile app. Improved UI was implemented on the existing iOS app.
- Designed and prototyped a new platform for a bike sharing service, using the principles of design thinking, user centered design and design tools including Sketch, Figma and Flinto.

Video Editor/Cinematographer Freelance

Mar 2017- Mar 2018

- Worked with youtuber Sejal Kumar and elevated the video production quality through editing and cinematography resulting in an increase of 500k subscribers over a period of one year
- Worked with companies such as Maybelline and Lakme India to create content to support their large scale marketing efforts.
